Patients Love Sapphire Home Whitening

“Sapphire Home Whitening was amazing. I could see an immediate difference after just 30 minutes!”

—J.W. RUMFORD, ME

“This whitening system is amazing. I have used many other systems in the past and this was the simplest, most effective system I have used!”

“WOW! I could see the results after the first 30 minute application and I experienced no sensitivity.”

Safe, Gentle, Effective.

Q: What causes tooth discoloration?

A: Discoloration may be the result of genetics, medication, poor oral hygiene, aging, smoking, certain foods and beverages, or a combination of these factors.

Q: Are you a good candidate for tooth whitening?

A: People with most types of discoloration can achieve lighter teeth through Sapphire Whitening Systems. The type of stain you have will affect how much whitening you will experience. Ask your dentist how much whiter your teeth can be.

Q: What is Sapphire Home Whitening Gel?

A: Sapphire Home Whitening Gel is a carbamide peroxide gel formulation designed to whiten teeth safely and effectively without the occurrence of whitening sensitivity and is only available from your dental professional.

Q: What is involved in the procedure?

A: Your dentist will take an impression of your teeth to develop your customized whitening tray. Once you have the whitening tray you will wear it up to 30 minutes per day or as directed by your dental professional.
